

Ismail Haddouche Rhali

Full-stack · Mobile Developer

► Murcia, Spain ► 38 years old

ismailhaddoucherhali@gmail.com

github.com/ismailhaddouche

LinkedIn

Full-stack and mobile developer with real production products (e-commerce with Redsys, Odoo ERP, native Android apps). Currently pursuing a BSc in Computer Engineering at UNED. Focused on building resilient software that thrives in production, not just demos that run on localhost.

PROFESSIONAL EXPERIENCE

Head of IT **CURRENT**

Oct 2025 — Present

El Paredes Chico SL

- Leading the digital transformation: Odoo ERP rollout, corporate web portal and e-commerce (Next.js, Firebase), and system integrations.
- Linux and Windows Server administration, GCP + Docker infrastructure, CI/CD pipelines, and network/security configuration for full-stack and mobile products.

CEO & Founder **COMPLETED**

Jan 2016 — Dec 2020

Adoptaunordenador.com · Self-employed

- Founded and managed a social startup focused on refurbished hardware. Built and operated the e-commerce business, logistics, and customer technical support.

Logistics Manager **COMPLETED**

Oct 2012 — Aug 2015

Globalatc SL

- Managed international logistics operations, coordinated suppliers, and optimized routes.

FEATURED PROJECTS

El Paredes **IN PRODUCTION**

elparedes.es

- Production-grade e-commerce for industrial vehicles and machinery. Redsys (Card & Bizum), Google OAuth, and real-time Odoo ERP synchronization.
- **Tech:** Next.js, Firebase, Firestore, Redsys, Odoo, App Hosting

MMCREAMPRO **IN PRODUCTION**

mmcreampro.com

- Production e-commerce for a massage cream product line. Redsys payments, order management, and Correos API logistics integration.
- **Tech:** Next.js, Firebase, Firestore, Redsys, Correos API

Disherio **OPEN SOURCE**

github.com/ismailhaddouche/disherio

- Open-source, self-hosted restaurant management suite. QR-code ordering, real-time KDS, multi-role POS, and flexible local or cloud deployment.
- **Tech:** TypeScript, Angular, Node.js, MongoDB, Socket.io, Docker

TimeTutor **ANDROID**

github.com/ismailhaddouche/timetutor

- Native Android app for private tutoring management. Interactive calendar, attendance tracking, invoicing, push notifications, and offline sync.
- **Tech:** Kotlin, Jetpack Compose, Clean Architecture, MVVM, Firebase

Episodeo **ANDROID**

github.com/ismailhaddouche/episodeo

- Personal TV-series tracker with TMDB search, smart lists, code-based list sharing, offline-first cache, and theme switching. Clean Architecture + MVVM.
- **Tech:** Kotlin, Jetpack Compose, Firebase, Room, Retrofit, TMDB API, GitHub Actions

TECHNOLOGY STACK

Languages: Kotlin, TypeScript, JavaScript, Java, C#, SQL	Mobile: Jetpack Compose, MVVM, Clean Architecture, Hilt, Retrofit, Room, Firebase
Frontend: Angular, React, Next.js, Vite, HTML5, CSS3	Backend & APIs: Node.js, REST APIs, Socket.io, Firebase
Databases: Firestore, MongoDB, PostgreSQL, MySQL, SQLite	Full-stack & Mobile Ops: GCP, Docker, GitHub Actions, CI/CD
Tooling: Git, GitHub, Android Studio, VS Code, Linux	AI: Claude Code, Codex, OpenCode, Skills, MCP

EDUCATION

BSc in Computer Engineering IN PROGRESS	<i>Feb 2026 — Present</i>
UNED — National Distance Education University	
• Focus: software engineering, algorithms, computer architecture, and distributed systems. EQF Level 6.	
HND in Multi-platform Software Development COMPLETED	<i>Sept 2023 — Feb 2026</i>
ILERNA Online	
• Native mobile development (Kotlin/Android), cross-platform architectures, database management, and cloud-native environments. EQF Level 5.	
High School Diploma COMPLETED	<i>2004 — 2006</i>
IES Ricardo Ortega
